

SonicSpider HotSpot Pricing

The cost of putting HotSpots on your web site will depend on how many locations you want them and how much web traffic you get.

Basic Set Up Cost: \$75.00 per location. Any customizations are extra.

Monthly Use Fees:

The HotSpot tool is a dynamic tool that feeds off a database on SonicSpider servers. There is a cost to maintain that information so that it can be displayed properly on your website. Because a website that is getting more traffic will be more demanding on our servers than a site getting less traffic the price goes up as well.

We have come up with use packages so that clients can pick the package that meets the demands of their web traffic. If you exceed your package there is an overage charge of \$0.05 a hit. A hit is every time someone visits the page(s) where your HotSpot is located.

<i>Plan</i>	<i>Hit Cost</i>	<i>Hit Allotment</i>	<i>Cost per Hit</i>	<i>Max HotSpots</i>
Starter	\$10.00	200	\$0.07	2
Business Basic	\$20.00	500	\$0.06	4
Business Standard	\$36.00	1200	\$0.05	10
Business Pro	\$60.00	3000	\$0.04	25
Enterprise	\$100.00	10000	\$0.03	No Limit

Overage Charges: \$0.05 a hit. **Clients are responsible for monitoring their hit package and notifying SonicSpider of any changes.**

Payment Policy: Credit Card Auto Billing. Overage charges will be automatically added to the bill.

Cancellation Policy: A 30 day written notice is required
